ABOUT

Web Developer with 18 years of experience, always excited about the prospect of working on the full spectrum of tasks that are required to build a successful SaaS application. From backend and frontend development, sysadmin, design and UX to documentation and support. A problem solver who loves to analyze an issue, recreate it and track it back to the source of the problem. Perpetually curious with an insatiable appetite to learn and really dig into it.

WORK EXPERIENCE

FREELANCE WEB & MOBILE DEVELOPER

REMOTE | Sep 2019 - Current

Developed a SaaS web application for the automotive care industry called **AutoBonus**: transparent automotive services marketplace for vehicle owners to find and book repair and maintenance services. Website is developed using PHP (Laravel framework) while the iOS and Android applications are built using Flutter/Dart. Software is currently under beta testing in Serbia (autobonus.rs), Croatia (autobonus.hr) and Hungary (autobonusz.com).

Redesigned, developed & launched a website for **Global VSAT Forum** (gvf.org) using a custom built WordPress theme and plugins for managing their membership levels, sending newsletters, organizing webinars and events (with payment gateways to Stripe and Paypal). Made a flawless data transfer (media with user related and accounting data) from the old website (based on Joomla).

Optimized and improved the **SatProf**'s website (gvftraining.org) according to Google's PageSpeed Insights and raised their overall score from F to A. Built a custom WordPress plugin to connect the website with iContact API for sending and displaying newsletters. Actively maintaining software (Laravel) that connects data stored in Google Docs/Sheets about students and their courses taken with Absorb LMS (over API).

ONLIME GROUP LTD

Web Developer, REMOTE | Sep 2015 - Aug 2019

Designed, developed & launched the website for used car marketplaces in Africa called **CarsOnline** (cars.onlime.com).

Developed and launched the CarsOnline iOS application (Swift).

Redesigned and maintained **Onlime Group**'s main website (www.onlime.com) using custom built WordPress theme and plugins.

Collaborated with developer and management teams on a wide variety of cross-media projects and built web-based administration panels for their needs.

Helped create and implement coding and design (branding) standards and practices.

Faculty of Technical Sciences (FTN)
Novi Sad, Serbia | 1995-2000

Hardware design based on 8-bit and 16-bit ARM microcontrollers. Custom software and bootloaders for ARM microcontroller devices written in C.

Available on request.

POKLON BON J.D.O.O.

Co-Owner and Co-Founder, ZAGREB (Croatia) | Dec 2012 - Oct 2013

Designed, developed & launched a platform from the scratch (website, native Android and iOS applications and a connection module to existing POS software) for loyalty programs based on coupons/vouchers in Croatian and Serbian markets. The project was eventually sold to a third-party company.

FREELANCE WEB DEVELOPER

REMOTE | Mar 2010 - Nov 2012

Designed HTML and WordPress templates for custom niche markets that were offered for sale on ThemeForest marketplace. Over 1800+ sales were made.

Designed and developed a SaaS application for online reservations to manage apartment/villa bookings. It provided an online platform to manage users' room bookings, promos/vouchers, etc. It was powered by PHP and MySQL. The software was tested in the local area under VisitPalic and VisitSubotica brandings.

VOTUZO D.O.O.

Programmer, SUBOTICA (Serbia) | Jul 2008 - Feb 2010

Designed and developed an Aggregation Platform for distributing web-based media content (news, blog posts, job postings, etc) from multiple sources to large audiences. The content was primarily focused on the Balkans region. This project was built using PHP (backend), Python (for scraping data) and MySQL (for storing data).

GOODWILL PHARMA D.O.O.

Graphic Designer, SUBOTICA (Serbia) | Jan 2007 - Jul 2008

Worked closely with their medical team and designed promotional material for drugs and supplements from their portfolio using CorelDraw.

Maintained their multiple websites.

PANONNET D.O.O.

Web developer, SUBOTICA (Serbia) | May 2005 - Jan 2007

Worked on their consumer portal application and main homepage.
Created websites for clients.
Provided technical support over email and phone.

SUONLINE D.O.O.

Web developer, SUBOTICA (Serbia) | Jun 2002 - Jun 2004

Worked on their consumer portal application and main homepage.
Created websites for clients.
Provided technical support over email and phone.
